

HTECH.ONE

Zero Carbon Energy Company

Hydrogen Powered
Electricity as a Service

**Carbon emissions cause
climate change.**

Climate change is killing us.

**What is your business
doing to reduce
carbon emissions?**

THE PROBLEM

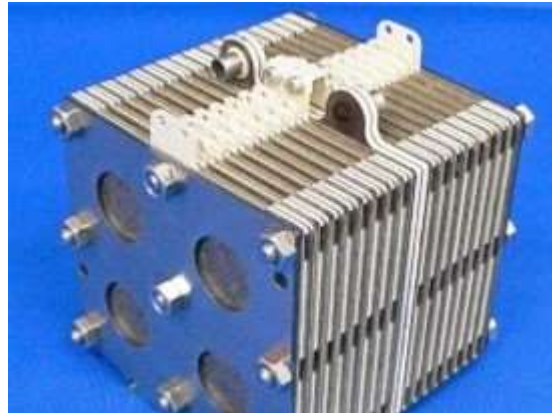

**Using fossil fuels to
generate electricity
causes climate change.**

THE SOLUTION

HTECH.ONE

Zero Carbon Energy

Reversible Solid Oxide Fuel Cell Stacks

HYDROGEN UNLIMITED BATTERY (H.U.B.)

**Reversible fuel cell stacks
that produces electricity
and green hydrogen gas.**

HTECH.ONE

Hydrogen Powered Electricity As A Service

**10kw to 1mw of non-stop, unlimited,
zero carbon electricity as a service
for businesses.**

**Hydrogen Powered
Electricity Infrastructure
at NO COST!**

**Businesses only pay for the
electricity they use,
at a cost of \$0.16/kwh.**

HTECH.ONE

**Helping businesses reduce
carbon emissions,
fight climate change and
save money.**

USE CASES

Hydrogen Unlimited Batteries designed in multiple sizes of 10kw to 1mw and built for mobility to accomplish the following for commercial and industrial businesses.

1. Hydrogen Powered Electricity Services

A. Fuel-2-Power - Supply zero carbon Hydrogen Powered Electricity as a Service for businesses.

B. Power-2-Fuel – Make hydrogen from renewable electricity for energy storage.

C. Power-2-Fuel-2-Power - Make hydrogen from renewable electricity to power intermittent / backup electricity generation

D. Transportation – Power Buses, Trucks and Ships with hydrogen fuel cell stacks, that increase range, minimize refueling time and reduce carbon emissions.

E. Refueling Service – Supply power to Fuel Cell Vehicles and Electric Vehicles.

2. Industrial Gas Production

A. Use sustainable, renewable energy to produce green hydrogen and oxygen gases for industrial applications.
